

Technology Assessment Sample Report

Version 1.0 | 9 October 2026

This document illustrates an engagement deliverable. All organizations, systems and findings below are fictional. Adapt the scope, criteria and evidence requirements with the client before use.

Engagement scope

Example institution: Example Payment Services Ltd. System: payment API, transaction database and release pipeline. Review boundary: infrastructure configuration, backup recovery, access control and release evidence. Legal compliance certification is outside this sample scope.

Evidence register

ID	Evidence requested	Owner / status
EV-01	System inventory and dependency map	Application owner / requested
EV-02	Backup configuration and recent restore results	Operations / received
EV-03	Production access list and approval trail	Security / requested
EV-04	Release pipeline configuration and validation logs	Engineering / received

Rating method

High: potential material service interruption or exposure requiring prompt treatment. Medium: control weakness that needs planned remediation. Low: improvement with limited immediate impact. Unverified: evidence is insufficient; do not mark the control effective.

Illustrative findings

ID / priority	Finding and evidence	Recommended action
F-01 / High	Restore evidence supplied does not include a successful end-to-end application recovery.	Run a representative restore, record recovery timings and reconcile transactions.
F-02 / Medium	A shared production account appears in the supplied access list. Ownership is unverified.	Confirm its use, assign accountable ownership and replace shared interactive access where appropriate.
F-03 / Medium	Release logs do not include a rollback rehearsal.	Define rollback criteria and rehearse the approved procedure in staging.

Action and acceptance register

Action	Owner / target date	Acceptance evidence
A-01 Restore exercise	Operations owner / agree date	Successful restore log and agreed recovery timings
A-02 Access review	Security owner / agree date	Approved access register and removed unnecessary permissions
A-03 Rollback rehearsal	Release owner / agree date	Rehearsal record and reviewed cutover runbook

Review and sign-off

Reviewer: _____ Date: _____

Client decision owner: _____ Date: _____

Outstanding evidence and agreed exceptions: _____
